Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is issued in response to applicant's amendment filed 6/27/05.
2. Claims 1-19 were amended. Claims 20-23 were added. No claims were canceled.
3. Claims 1-23 are rejected.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The amended limitation "the filtering system further assigns a value to the at least one solution variable based on the selected health questions, the set of links, and the user health data". it's unclear to the Examiner how the system would assign a value to the at least one solution, based on the selected health question and or the set of links (which set of links is it the solution set of links or the question set of links, and how that is related to the user health data, the Examiner is unclear whether it's related to the amount of data provided or type of data by a user or is it the data that have been saved in the database for that specific user. Clarification required.

Art Unit: 2164

Claims 2-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention since they inherent the deficiency of claim 1 where they depend from.

Allowable Subject Matter

Claims 1-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: a question database containing a plurality of health questions, where each health question is related to the health information to be distributed, a solution database containing a plurality of health solution elements, where each solution element is related to the health information to be distributed at least one solution action is associated with at least one of the health solution elements; and a solution variable defines a quantity associated with each solution action; links associating each of the health questions in the health question database with at least one of the health solution elements in the solution database; a user information system for allowing a user to enter user health data related to the health of the user; a selecting system for allowing the user to select one or more health questions from the question database to generate a set of selected health questions related to the health of the user; and a filtering system for generating a customized list of health solution elements for the user based on the selected health questions, the set of links, and the user health data such that the customized list of health solution elements

Art Unit: 2164

contains at least one health solution element specifically related to the health of the user; whereby the filtering system further assigns a value to the at least one solution variable based on the selected health questions, the set of links, and the user health data.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
